Empty chairs, rooms, houses, fields, roads, etc. Overall 5 Stars but at times seems like homework rather than fun.Tuchman’s law is now multiplied by a factor of 24/7 X 365 with the advent of talking heads on cable: (view spoiler)[Disaster is rarely as pervasive as it seems from recorded accounts. The final battle against the Turks was emblematic of the entire period, hubris and the vanity of the so-called nobility is shattered on the battlefield. This has led me to formulate Tuchman’s Law, as follows: “The fact of being reported multiplies the apparent extent of any deplorable development by five to tenfold” (or any figure the reader would care to use)” (hide spoiler)]Illuminating explanation of the eventual corruption of the Catholic Church in the Middle Ages:(view spoiler)[By Constantine’s gift, Christianity was both officially established and fatally compromised. or its affiliates Look around you, your friends, family, neighborhood, school, town, state, country. With all the battles and wars, you would think the knights and leaders would gain some expertise in going to war, but they don’t seem to: (view spoiler)[Although Anjou had proclaimed his intention to “promote the fate of the Church by the force of chivalry”—that is, by force of arms—he failed to exert that force against Urban. What you see is what happened in the 14th Century as the Black Death, war, brigandage, famine, poverty ravaged the population of Europe. After absorbing the news of today, one expects to face a world consisting entirely of strikes, crimes, power failures, broken water mains, stalled trains, school shutdowns, muggers, drug addicts, neo-Nazis, and rapists. As William Langland wrote, When the Kindness of Constantine gave Holy Church endowments In lands and leases, lordships and servants, The Romans heard an angel cry on high above them, “This day dos ecclesiae has drunk venom And all who have Peter’s power are poisoned forever.” That conflict between the reach for the divine and the lure of earthly things was to be the central problem of the Middle Ages. Enroute the knight rode his palfrey, high-bred but of quieter disposition, while his squire led the destrier at his right hand—hence its name, from dexter. Any person who nursed a plague patient was to be strictly quarantined for ten days; priests were to examine their parishioners for symptoms and report to a special commission under pain of death for failure; anyone who brought the disease into the city was subject to the death penalty and confiscation of property. a great book, in a great historical tradition.”—Commentary A “marvelous history”* of medieval Europe, from the bubonic plague and the Papal Schism to the Hundred Years’ War, by the Pulitzer Prize-winning author of The Guns of August *Lawrence Wright, author of The End of October, in The Wall Street Journal The fourteenth century reflects two contradictory images: on the one hand, a glittering age of crusades, cathedrals, and chivalry; on the other, a world plunged into chaos and spiritual agony. a great book, in a great historical tradition.”—CommentaryNOTE: This edition does not include color images. Now imagine 40-50% of them are gone forever. Reconnoitering terrain in advance was not part of medieval warfare because it was not part of tournaments. Battle was his exaltation. Leaving the coast at Ancona to cross the Apennines early in September, he bypassed the road to Rome, although a bold effort might have taken the city at this time. The fact is that one can come home in the evening-on a lucky day-without having encountered more than one or two of these phenomena. Venice denied entry to all ships suspected of carrying infection, but with the flea and rat not yet implicated, the precautions, though groping in the right direction, failed to stop the carrier. Not always riveting reading but well worth the effort—it took me over a month to finally slog through. She has done nothing finer.”—The Wall Street Journal “Wise, witty, and wonderful . . . (hide spoiler)]The idea of chivalry is much exaggerated. “If I had one foot already in Paradise,” exclaimed Garin li Loherains, the hero of a chanson de geste, “I would withdraw it to go and fight!” The troubadour Bertrand de Born, himself a noble, was more explicit. Prince Rupprecht of Bavaria, commander of the Sixth Army, urged General Ludendorff, Chief of General Staff, to ensure that the castle of Coucy be spared as a unique architectural treasure of no current military value. Highland brigands, pulled by strings from Naples, attacked the baggage train and the rear guard escorting the treasure, with the result that Anjou arrived at Caserta, within a day’s march of Naples, very much poorer than when he set out. While it raged in Milan, Bernabo ordered every victim to be taken out of the city and left to die or recover in the fields. ...more A “marvelous history”* of medieval Europe, from the bubonic plague and the Papal Schism to the Hundred Years’ War, by the Pulitzer Prize-winning author of The Guns of August *Lawrence Wright, author of The End of October, in The Wall Street Journal The fourteenth century reflects two contradictory images: on the one hand, a glittering age of crusades, cathedrals, and chivalry; on the other, a world plunged into chaos and spiritual agony. Neither side, he pointed out, had attempted to use it for military purposes, and its destruction “would only mean a blow to our own prestige quite uselessly.” Ludendorff did not like appeals to culture. Coucy having been unwisely called to his attention, he decided to make it an example of superior values. “A brave man mounted on a good horse,” it was acknowledged, “can do more in an hour of fighting than ten or maybe one hundred could do afoot.” The destrier or war-horse was bred to be “strong, fiery, swift, and faithful” and ridden only in combat. The claim of the Church to spiritual leadership could never be made wholly credible to all its communicants when it was founded in material wealth. (hide spoiler)]The Germans in WWI destroyed a great castle that helped focus the story in Tuchman’s book:In 1917 Picardy, invaded once more, had been occupied for three years by the German army. I won’t attempt a detailed review of the book—there are so many good ones already. (hide spoiler)]These medieval people had a way with words and were not afraid of a little sexual innuendo:(view spoiler)[Isabella could well have listened to the tales of Jean de Condé, poet in her lifetime at her mother’s native court in Hainault. What Ms. Tuchman does superbly is to tell how it was. Just a few excerpts that I found especially interesting. In this revelatory work, Barbara W. His style is illustrated by a story about a game of truth-telling played at court before a tournament. Rammed with 28 tons of explosives at his orders, the colossus raised by Enguerrand III in the age of the greatest builders since Greece and Rome was dynamited to the ground. And when battle is joined, let all men of good lineage Think of naught but the breaking of heads and arms. For it is better to die than be vanquished and live. For his beard was...little more than the kind of fuzz that ladies have in certain places.” The Queen tells him she does not doubt his word, “for it is easy to judge from the state of the hay whether the pitchfork is any good.” In his turn, the knight asks, “Lady, answer me without deceit. My heart is filled with gladness when I see Strong castles besieged, stockades broken and overwhelmed, many vassals struck down, Horses of the dead and wounded roving at random. So much death and destruction. Tuchman brings this world alive with incredible detail, following the story of one French nobleman. No one has ever done this better.”—The New York Review of Books “A beautiful, extraordinary book . At Piacenza, where Coucy’s war effort ended, half the population died, and at Pisa, where the plague lasted two years, it was said to have wiped out four fifths of the children. This Century was filled with bloodthirsty men with only one skill:(view spoiler)[...knight-chevalier in French-meant the man on horseback. I tell you I have no such Joy as when I hear the shout “On! On!” from both sides and the neighing of riderless steeds, And groans of “Help me! Help me!” And when I see both great and small Fall in the ditches and on the grass And see the dead transfixed by spear shafts! Lords, mortgage your domains, castles, cities, But never give up war! Dante pictured Bertrand in Hell, carrying his severed head before him as a lantern. In fulfilling military service, horse and knight were considered inseparable; without a mount the knight was a mere man. (hide spoiler)]I thought Tuchman was very effective in explaining the Hundred Years’ War and all the conflicts around the continent. Granting her subjects their loyalties, treacheries, and guilty passions, Tuchman re-creates the lives of proud cardinals, university scholars, grocers and clerks, saints and mystics, lawyers and mercenaries, and, dominating all, the knight—in all his valor and “furious follies,” a “terrible worm in an iron cocoon.” Praise for A Distant Mirror “Beautifully written, careful and thorough in its scholarship. The fact of being on the record makes it appear continuous and ubiquitous whereas it is more likely to have been sporadic both in time and place. © 1996-2014, Amazon.com, Inc. A knight, asked by the Queen if he has fathered any children, is forced to admit he has not, and indeed he “did not have the look of a man who could please his mistress when he held her naked in his arms. Agents had brought word that Hawkwood’s White Company, promised for Urban’s defense, had been held back by Florence for her own protection. Instead, against the advice of Amadeo of Savoy, Anjou took the lower road for Naples, and as the army passed through defiles and across gorges, between peaks “that touched the sky,” calamity overtook them. The clash was everything. Is there hair between your legs?” When she replies, “None at all,” he comments, “Indeed I do believe you, for grass does not grow on a well-beaten path.” (hide spoiler)]The third wave of the Plague resulted in extreme measures in some places:(view spoiler)[With the third advent of the plague, contagion was more strictly controlled if no better understood. Tuchman at the top of her powers . Not always riveting reading but well worth the effort—it took me over a month to final Look around you, your friends, family, neighborhood, school, town, state, country. Tuchman examines not only the great rhythms of history but the grain and texture of domestic life: what childhood was like; what marriage meant; how money, taxes, and war dominated the lives of serf, noble, and clergy alike. Besides, persistence of the normal is usually greater than the effect of disturbance, as we know from our own times.
